

EXPECT NEGATIVE TONE IN REPLIES

By Telegram to The Freeman.
London, Dec. 29.—In view of Germany's failure to name any peace terms in the reply to President Wilson, the belief was expressed here today that the identical notes of the allied governments to Washington in answer to the American president and the peace proposals of the German allies will greatly strengthen the position of the Entente in the United States.

According to a well-founded belief expressed today both state papers will be on their way to the United States before Sunday.

It was accepted as a foregone conclusion that the tone of both replies will be negative so far as the issue of an immediate peace conference is concerned, although it is likely that the Allies may go further than Premier Lloyd-George in setting forth the aims and conditions of the Allied powers.

Russia has already allowed her attitude to be known. It is a flat rejection of any proposal to begin a peace parley with Germany at this time unless the Imperial government makes known its terms.

This was taken as a forecast of the reply from all the Allied governments. Rumania, the latest nation to join the war and the country in which the German allies are now carrying on a successful conquest, has added her indorsement to the attitude taken by Russia.

Germany's evident attempt to create dissension among the Allies has proved a failure. The unity of the Entente nations is said to be closer now than ever before.

There are rumors that the pact of London, by which each allied nation agrees not to make peace without the consent of her allies, may be renewed.

There is a recurrence of the report that Sir Cecil Spring-Rice may retire as British ambassador to the United States, but there has been no confirmation. It is stated that considerable criticism has been directed against the British ambassador in Washington because of his reputed ability to cope with the activities and propaganda work of Count von Bernstorff, the German ambassador.

Dispatches from Paris indicate that the German reply to President Wilson was greeted with scorn by the French press. The opinion in official circles in Paris seems to be that the Allied governments should tell President Wilson what he desires to know, but at the same time continue to carry on the war more vigorously than ever until Germany is vanquished.

Gustav Herve, one of the most outspoken publicists in France, says that it is a case of "War to the knife" with no immediate prospects of peace.

MUNITION ORDERS NOW GO TO CANADA

By Telegram to The Freeman.
New York, Dec. 29.—Canada has assumed the burden of supplying the major part of Great Britain's munitions. It was stated in banking circles today. Orders totalling hundreds of millions of dollars have been diverted from American factories to those of the Dominion, and before long the United States will occupy a negligible position in the export of ammunition.

American factories which recently have been given new contracts. This is due, it was said, to the desire of the British government to give its own people the work. Canada now has facilities to handle a \$400,000,000 business annually.

Superior Steel Company Sold.
By Telegram to The Freeman.
Pittsburgh, Pa., Dec. 29.—Announcement was made today of the sale of the Superior Steel Company of Carnegie, to eastern capitalists for \$11,500,000. The deal is one of the largest consummated in the steel industry in the Pittsburgh district in many years.

The eastern bankers taking over the Superior plant are Cassatt and Company, and Frazier and Company of Philadelphia. Merrill Lynch and Company and White, Weld and Company of New York. A new corporation operating under the name of the Superior Steel Corporation, has been formed.

Government to Dispense Booze.
By Telegram to The Freeman.
London, Dec. 29.—The purchase of the drink trade by the government is believed to be imminent, says the Daily Express. It estimates the cost at about \$1,500,000,000. Drastic measures to curtail the production and sale of whiskey and beer are under contemplation by the government. The most far reaching restrictions are proposed for London and the manufacturing centers.

Acetylene Explosion.
Charles Hill lies in Thrall hospital, Middletown, in a critical condition as the result of injuries suffered in an explosion at the acetylene plant on the estate of Dr. Jokichi Takamine, the Japanese inventor, at Merriwood Park, Sullivan county, Sunday afternoon. LaRue Kinzie died from his injuries suffered in the explosion.

WHILE TERMS ARE SHY PEACE HALTS

Watchful Waiting Resumed at Washington in Default of Definite Suggestions From Belligerent Powers—Teutonic Alliance in Earnest Over Move is Belief.

By Telegram to The Freeman.
Washington, Dec. 29.—Until one side or the other in the world war now being waged makes a suggestion of terms, no further great step forward toward peace is expected here. Officials here are of the opinion that the Teutonic alliance will take the initiative in this, possibly after receiving a reply to its first offer of a peace discussion.

The failure of Germany to outline to the United States any hint of terms, in replying to the Wilson note, which caused depression here at first is regarded now in a different light. It is generally conceded that it is the evident intention of Germany and her allies, when the proper time comes, to name terms for a peace discussion in the direct correspondence being carried by their enemies. There was nothing in the Wilson note, strictly interpreted, asking Germany to set forth its terms to the United States. It was pointed out today.

The Berlin reply to Switzerland has emphasized one point in the minds of neutral diplomats in Washington—that the original offer of the Central Powers was not a "bluff" to gain neutral sympathy, and that the Teutonic Alliance is in earnest.

There has been nothing received here during the past 24 hours to indicate any change of attitude on the part of the Entente governments. Not even the most optimistic believe that there will be any early change in the position that the Entente has taken from the first—that a peace discussion is impossible while its enemies suggest it in the role of a victorious league of nations.

There is some suggestion here that the reported intention of the administration to keep future peace developments secret is the forerunner of the receipt of tentative terms from the Central Powers. It is doubtful, however, if terms will be named except in the direct diplomatic exchanges between the belligerents. In the United States is acting merely to transmit the notes.

MYSTERIOUS SHIP RAIDING ATLANTIC

Shipping Circles in New York Are Convinced of Existence of New Destructive Force on Ocean Lines—Five Big Freighters Are Missing.

By Telegram to The Freeman.
New York, Dec. 29.—Shipping circles here are convinced that some mysterious destructive power—probably a German raider of the Moewe type—is working in mid-Atlantic.

The belief has been prevalent for several weeks—ever since the big Lamport and Holt liner Voltaire dropped out of sight. It grew to conviction today when it was learned that five big freighters, four British and one Belgian, are long overdue and nothing has been heard from them. They are:

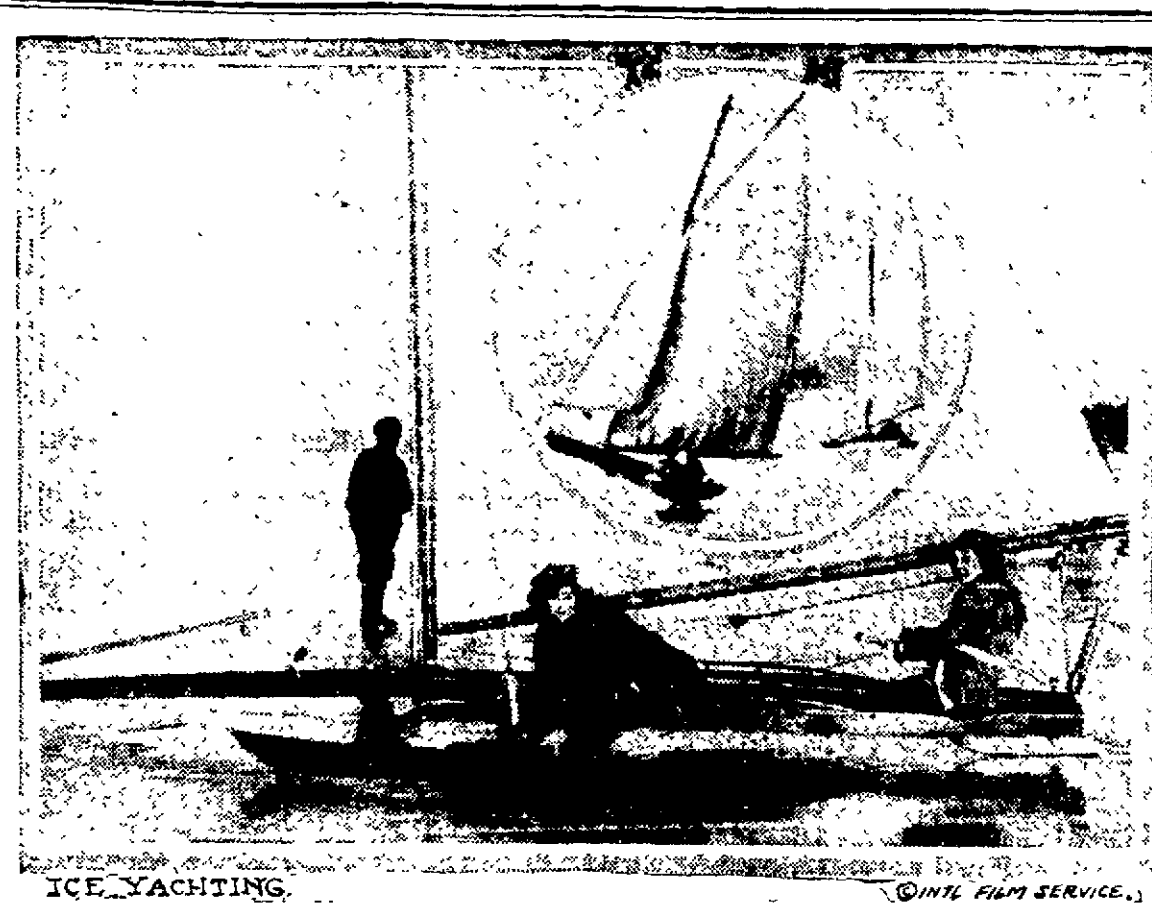

The White Star liner Georgic, 10,607 tons, Philadelphia to Liverpool.
Baron Bayens, Belgian, 3,615 tons, London to New York.
Bellegroun, 8,954 tons, Southampton to Halifax.
Belgravin, 2,521 tons, Barry to New York.

Bayreuth, Cardiff to Montreal. Strengthening the conviction that some agent is at work in the Atlantic was the arrival here today of the liner Lapland. On board were passengers and crew of the Russian steamer Kursk, said to have been sunk by a mine, and the crew of another vessel, whose name was withheld as was the manner in which she was sunk.

Two French cruisers, it was learned, have been searching for the raider, or raiders, for two weeks, using Halifax as a base. So far they have found nothing.

Killed by an Automobile.
An unknown man struck by an automobile in Yonkers Christmas night, was identified as David Carruthers, Jr., a Newburgh carpenter, just a few hours before he died on Wednesday morning in a Yonkers hospital. With his wife Carruthers had been to New York on a Christmas visit and the man was walking to the Yonkers railroad station from his host's home when an automobile driven by Attorney Bern Budd of Scarsdale, struck him.

Christmas Entertainment.
The regular Christmas entertainment of the First Reformed Sunday school will be held in the chapel of the church this evening at 7:30 o'clock. A play will be given by the members of the school, carols will be sung and presents for the little ones, given. Refreshments will be served. All members of the Sunday school are invited and a small sum will be charged those not members of the Sunday school.

ICE-BOATING A POPULAR SPORT.
Winter sports are occupying the attention of eastern society folk these days. This picture shows two daring young women of New York city who run their own ice yacht on the Shrewsbury River, near Red Bank, N. J. At times these boats make a speed of sixty miles an hour.

ARNOLD CASE NOW BEFORE TOMPKINS

Supreme Court Justice Tompkins has reserved decision in the Rockland county case of Sarah J. Conklin against Judge Lynn J. Arnold, with the understanding that the case is to be decided on the papers, if it can be done in that way, or if testimony is deemed necessary to establish proof as to certain items, such testimony may be taken before the court or a referee. The matter was first up before Justice Tompkins at special term in Newburgh December 18, when Judge Arnold appeared by Russell Ford of Albany, his attorney in response to an order issued by Justice Hirschberg requiring him to show cause why certain bank-books, papers, a check for \$2,300 and a check for \$35,000 on which payment had been stopped, should not be delivered to Mrs. Conklin. Possession was also demanded of a will which Judge Arnold drew for her, and by which she left practically her entire fortune to him.

Judge Arnold is a member of the Albany law firm of Arnold, Hinman & Bender, and is president of the corporation owning the Albany Knickerbocker Press. Mrs. Conklin, 80 years old, is a resident of Haverstraw, and the mother of the late Jacob E. Conklin, who for years was in partnership with Wilson Foss in the stone business in Rockland county. When the case came before Justice Tompkins December 18, Mr. Arnold's representative produced the checks in question and the will and expressed a willingness to place them in the hands of the court until the matter is settled. The papers included the \$35,000 check and Judge Arnold's personal check for \$3,800 on the Chase National Bank of Albany, which check was afterwards certified. Justice Tompkins took the checks and documents, and the proceeding was adjourned until Saturday last, December 23, in the supreme court chambers in Nyack.

Dr. Tarleton H. Bean Dead.
By Telegram to The Freeman.
Albany, Dec. 29.—Dr. Tarleton Hoffman Bean, state fish culturist, died in this city last night after a brief illness. He was struck by an automobile on Nov. 13 and removed to his home with a bruised thigh and knee. These did not respond to treatment, complications set in and he died last night.

Arrest Alleged Defaulter.
Cornelius E. Downie, alleged defaulter poor superintendent of Sullivan county, was arrested at his home in Wurtsboro late Wednesday on a warrant issued by County Judge George H. Smith, charging him with grand larceny. Downie was brought to Monticello, where he was given a preliminary hearing before the county judge, and released on \$1,000 bail for appearance at a hearing next Tuesday. It is said friends will try to make good the shortage, estimated at \$16,000, but the criminal proceedings will not be halted.

Berlin Cafes to Remain Open.
By Telegram to The Freeman.
Berlin, Dec. 29.—The president of Berlin has issued an order allowing cafes and restaurants to keep open New Year's night until 1 o'clock. The war time closing hour is 11:30.

Curtailed Railway Service.

London, Dec. 29.—Beginning the first of January about 400 passenger trains will be taken off British railroads to save fuel and expedite the movement of war supplies.

BRINNIE ORDERS EMERSON CAR

Corporation Counsel William D. Brinnier believes in doing and not talking and on Wednesday he placed the first local order with the Emerson Motor Company of this city. Mr. Brinnier has inspected the local product and having been an automobile owner for years and having driven some of the best makes of cars Mr. Brinnier decided to own a Kingston made machine. In his letter to the company, Mr. Brinnier stated that he would accept the first car made by the company at the local point. That Mr. Brinnier believes in patronizing home trade is shown by his present order. Many local people will probably follow Mr. Brinnier and place orders with the company before spring.

"DOC" WATERBURY ARRIVES IN TOWN

"Doc" Waterbury, until Thursday a guest of the state of New York at Sing Sing prison where he had been stopping for some time at the invitation of a New York judge, arrived in Kingston late in the day in company with Sheriff Shultis and is now a resident of Ulster county's hotel at 1818 Wall street.

Waterbury is here to answer to an indictment handed down by the grand jury back in March, 1914, shortly after he had, under the name of J. Malcolm Stuart, swindled Dr. Sahler out of a sum of money on a pretense of supplying articles to the latter's publication.

Waterbury arrived at the jail in high spirits and evidently confident that the Ulster county authorities would be kind to him. However, when the Ulster county officials are through with him he will probably find some other county officials camped down on his doorstep waiting for his release in much the same manner that the Ulster county authorities did.

MILK PRICES FOR JANUARY.

New Scale Agreed Upon at Meeting in New York City.

A new scale of milk prices for producers for January, February, March was agreed on at a meeting Wednesday in New York city of a committee composed of two representatives of the producers, two representatives of New York city dealers and State Senator Charles W. Weeks of Oneida county, chairman of the legislative committee investigating the food situation.

The highest price fixed is for January, when \$2.20 a 100 pounds will be paid for milk produced in what is known as the first district and \$2.10 a 100 pounds in the second district. The prices for February and March are \$2.15 and \$2.10 respectively for the first district and 10 cents less for the second district. The prices are for milk with three percent, butter fat with an advance of three cents a 100 pounds for each one-tenth percent increase in butter fat. The prices agreed on are subject to revision by the committee if it considers conditions warrant revision. They are five cents a 100 pounds higher than the prices originally set by the Dairyman's League.

Sabin Marries Mrs. Smith.
Charles H. Sabin, president of the Guaranty Trust Company of New York city, whose wife obtained a divorce from him in this city several months ago, was married at Westminster, N. J., on Thursday to Mrs. Pauline Smith, daughter of the late Paul Morton, who was secretary of the navy under President Roosevelt and at one time president of the Equitable Life Insurance Society.

Mrs. Sabin's first wife was Miss Mabel Whitney, member of one of the old and aristocratic families of Albany, who married him in 1897. The testimony in the divorce suit showed that Sabin had visited a house in New York with a friend and several women. His present wife divorced her present husband, J. Hopkins Smith, about two years ago. In October Mr. Sabin attracted much attention by his admission that he was the man responsible for the statement that Germany was then ready to make peace with the Allies. All of the parties are prominent in New York society.

Judge Weis Secretary.
Officials at the White Plains court house were surprised when they received word that Frank L. Young, county judge, had married Miss Mary E. Cummings, his private secretary, at the parsonage of the Presbyterian Church, Ossining, Wednesday morning.

The ceremony was performed by the Rev. James A. McWilliams, the pastor. Immediately afterward the bride and bridegroom started on a honeymoon trip to the south.

SHERIFF SHULTIS GETS HIS MEN

"Bad Bill" Monroe Comes Meekly Along When the Sheriff Tells Him to—Latest Escapades of Ulster's "Bad Man."

When Sheriff Shultis goes after his man he usually brings him back with him and on Thursday afternoon after bringing "Doc" Waterbury up from Sing Sing, word was received by telephone from terrified residents of the town of Plattekill to the effect that "Bad Bill" Monroe was again on a rampage. Knowing that there was no hope of securing "Bad Bill" during daylight, the sheriff and his party did not leave until in the evening, when Sheriff Shultis, Undersheriff Scott Hornbeck and Night Jailer Seth Jocelyn started on the trail of the bad man of Ulster county.

Hoping to take "Bad Bill" in his usual haunts, about the town of Plattekill, the sheriff's party first visited that section of the county but found that Monroe had left for Newburgh and then off to Rock Cut, four miles west from Orange Lake, where "Bill" was located.

Knowing "Bad Bill's" reputation, especially after he had been parading about of hard elder and other joy water, the house was surrounded and with Seth Jocelyn the sheriff proceeded to the building and "Bill" was told to get up, put on his shoes and "come along." Without a word the desperate "bad man" did as he was told and without a bit of trouble the handcuffs were snapped on and he was taken before Justice Ostrander for a hearing.

When arraigned he pleaded not guilty to the charge and the case was adjourned until Saturday afternoon at 1 o'clock. "Bad Bill" was then bundled into the sheriff's automobile and brought to the county jail, where the party arrived at 2:15 in the morning.

The trouble started on Christmas Day when Mrs. Monroe failed to get her husband's supper at the time he thought proper. The Monroe had had company during the day and shortly after dark "Bad Bill" accompanied the young woman, named never, to her home. On returning Bill found that his wife had gone over to a neighbor's home for a call instead of getting supper.

Finding no supper ready "Bad Bill" proceeded to the house where his wife was and choked her so badly that the prints of his fingers were still to be seen on Wednesday. He then returned to his home in the town of Plattekill and proceeded to break every article of furniture in the house, including the stove.

When the wife returned she found a note written by her husband stating that he had left, never to return.

However, Monroe changed his mind for on Tuesday he visited the White Cross Creamery and put terror into the hearts of the men employed there. On Wednesday night he made a return visit to the creamery and in real bad man fashion he drew a pistol which he fired off at nothing in particular. Again Thursday he sallied forth and again terrified the residents and a hurry call was sent in to the sheriff's office with the result that Sheriff Shultis and his men visited the scene of the disturbance and brought back the "bad man."

When Mrs. Monroe found the note stating that Bill had left forever the residents heaved a sigh of relief believing that they were forever rid of the desperate character, but knowing Bill of old Sheriff Shultis lay low and waited for the return of Monroe to his usual haunts. Perhaps thinking the matter had been dropped, Bill did return and was captured while he slept.

Monroe is well known throughout the county, especially in the town of Plattekill and around New Paltz. Some time ago Bill struck terror in the hearts of the people about Ireland Corners, near Gardiner when he assaulted Abram Deyo and several farm hands. Bill has served time in prisons and also has been a guest in the county jail before. Although Bill has a reputation of being a desperate character, he has never given the authorities any trouble and Thursday night when brought to jail he came along without any difficulty. "Bad Bill" is evidently at his worst while in the vicinity of Plattekill and New Paltz.

Excitement on Murray Street.
Thursday afternoon while Harry Sabloff of Hasbrouck avenue was driving a delivery sleigh through Murray street one of the shafts dropped down, frightening his horse and causing it to bolt, hurling Mr. Sabloff and his sister, who was with him, out of the sleigh. Fortunately no one was injured.

Werbalowsky Out on Bail.
Jacob Werbalowsky, held by Recorder Lang for the grand jury on a charge of assault in the first degree, was admitted to bail Thursday afternoon by Judge Jenkins, who fixed \$1,000 as the amount of the bond. Julius Werbalowsky, a brother, and Hyman Leventhal are the bondsmen.

BERLIN EXPECTS ANOTHER NOTE

By Telegram to The Freeman.

Berlin, Dec. 29.—Another note from President Wilson renewing his peace initiative, is expected here, according to the view, expressed by some newspapers. However, there is little hope that the American president will be successful in persuading London, Paris and Petrograd to accept the proposal for an immediate peace parley.

The Lokal Anzeiger says: "Our proposal is set forth in more detail in answer to Mr. Wilson in our peace offer. An exchange of views between delegates of the warring powers in some neutral place is proposed. It is to be expected that President Wilson will second this proposal, and support it with our wishes expressed by President Wilson. In view of the non-partisan spirit of his note, he cannot possibly demand that we, as the Entente press scornfully demands, make known our peace terms before our enemies do, and enter the peace negotiations with our hands bound, while our enemies come in unpledged to anything."

In its answer to President Wilson the Imperial government confirms once more what the chancellor had to say in the Reichstag, in that it gives assurances that Germany will cooperate in contriving ways and means in the future of securing world peace, and agrees with Mr. Wilson that negotiations in this respect can only be begun after the war.

If now, as the result of our answer, the president of the United States should see himself impelled to urge our enemies to send delegates to a neutral place for the purpose of initiating peace negotiations, we are yet far from harboring hope that his advice will bring success in London, Paris, Petrograd or Rome. We believe that the French senate was serious in its answer and that all the other enemy capitals are just as hostile to peace as Paris. We must therefore prepare ourselves for the threatening great spring storm on all fronts.

A. C. LONGYEAR ARRESTED THURSDAY

On Bench Warrant Issued in Herkimer County—Alleged His Auto Struck a Man in Ulster—Mr. Longyear Says It's a Mistake.

Arthur C. Longyear, an architect of this city, was arrested on Thursday afternoon by Sergeant Hanley on a bench warrant issued in Herkimer county. Early in June of this year a man was struck by an automobile in Ulster, N. Y. The machine did not stop but proceeded on its way. It is claimed the license number was secured and a search of the records show that the number was that of the machine owned by Mr. Longyear. The matter was laid before the grand jury of Herkimer county who returned an indictment on which the bench warrant was issued.

Sheriff J. W. Moon of Herkimer county was in Kingston on Christmas Day, but Mr. Longyear was not in the city and the sheriff left the warrant with the local police to serve when Mr. Longyear returned home. Mr. Longyear told Sergeant Hanley on Friday that he was not in or near Ulster at the time of the accident, but was in New York city, and is of the belief that there must be a mistake in identity.

Mr. Longyear was admitted to bail in the sum of \$1,000 to appear in Ulster on January 15, by Judge Hasbrouck that afternoon.

NEW EMPEROR FAVORS PEACE

By Telegram to The Freeman.
London, Dec. 29.—It is generally recognized that Emperor Charles of Austria, after being crowned king of Hungary, will try to establish peace, wiring the Budapest correspondent of the Morning Post. He adds that Emperor Charles will exert friendly pressure upon Germany, but that if Germany fails to respond, "he will use other kinds of pressure which Germany will be unable to endure long."

Conditions in the Dual Monarchy have become so serious that there are said to be members of the government seeking a separate peace with Russia and France upon any terms they can get, no matter how humiliating.

SALVATION ARMY
REVIVAL MEETINGS

Colonel Samuel Logan Bringle, D. D., international evangelist of the Salvation Army, will conduct a series of revival meetings at the Salvation Army barracks, No. 94 North Front street, beginning Tuesday, January 2, and continuing to January 14. Services will be held each evening at eight o'clock and afternoon meetings will be held at three o'clock.

Colonel Bringle is an American from the middle west. He was born on a farm in the southeastern corner of Illinois and worked there until well up in his teens. His father died as a result of diseases contracted at the Siege of Vicksburg, where he was an officer in General Grant's army. The colonel attended local and high schools and is a graduate of DePaul University at Green Castle, Ind. While there he preached locally earning his tuition. After leaving DePaul University he attended several terms at the Boston Theological Seminary and held several pastorates in or near Boston.

It was in Boston that the colonel's attention was first turned toward the Salvation Army. He presently made application for officership and was sent to London to the International Training College. Upon graduating he returned to the United States and entered actively into the evangelistic work of the Salvation Army. He suffered severe and violent persecution and was disabled for more than a year as the result of a blow on the head by a rock thrown by a tough. At this time he wrote voluminously for the Army publications and these articles were afterward compiled into a volume which has been translated into a dozen different languages, and has had a circulation of several hundred thousand. Later he wrote at different times, four other books and a multitude of articles for Salvation Army publications in all parts of the world.

About fifteen years ago the colonel's field broadened considerably when he was called to evangelistic work in Europe. He made several trips through Scandinavia, Finland, Holland and Switzerland, and a little later through Australia and New Zealand. Everywhere his work met with universal success. Many thousands of conversions were made in his meetings, and the general tone of the Army work in all these countries he visited, was significantly raised. Colonel Bringle is today the Army's chief travelling evangelist and an authority on all subjects touching on religious life.

KINGSTON, N. Y., DEC. 29, 1916.

President Wilson's literary style and its sometimes prejudicial effect upon the subject matter of his state papers has often given rise to legitimate criticism at home and abroad. The same stress upon phraseology which marked his earlier messages to Congress and tended so much to obfuscate his meaning has continued to be manifested in later messages and in the notes to the different European governments during the war. The dangers of such sacrifices of clarity for rhetoric are made apparent by the decidedly differing interpretations placed upon the President's peace proposals by the bellicent governments. Of all the condemnation and faint praise given our Chief Magistrate in this connection, the comment of M. Clemenceau, former premier of France, presents perhaps the best composite view. He says: "He who wants to influence directly the opinion of men must speak out clearly. Mr. Wilson's lantern smokes too much. In England the same impression was produced at first and it will be recognized that when a statesman intends to influence contemporaries it is a grievous misfortune if both friends and enemies can, in good faith, be mistaken as to his intentions." If further testimony were needed of President Wilson's painful shortcomings in this direction, it can be found in a perusal of the great papers by the truly great men in history. The use of language to conceal meaning is a practice that has never before been justly laid at the door of American statesmanship.

The latest estimate of the Census Bureau puts the population of the United States at over 112,000,000. Complete election returns show that 18,638,871 persons voted for President in November. That is one vote for every six inhabitants. We assume that the City of Kingston is representative of the country, and we find by the census of 1910 that at that time about three out of every ten residents were qualified voters. Doubtless that is about the general condition of the country today. If so, an easy calculation shows that seven million voters failed to go to the polls last month. The seriousness of this fact is shown by the circumstance that Wilson's popularity was only 568,822. That means that the stay-at-homes held the balance of power a dozen times over. Now, back in the eighties, nearly one out of five persons voted, instead of one out of six, as was the case this year. The contrast is much more striking when we remember that only a handful of women could vote thirty years ago, while millions are now in possession of the franchise. We cannot escape the conclusion that there has been a notable decline of public interest in politics.

Of course, there is always somebody who stands ready with a cure for every ill. Quite a number of political physicians think that the remedy for non-voting lies in the enactment of a compulsory voting law. It is a safe prediction that such a statute would become a dead letter from the moment of its enactment. Human nature being what it is it would be like to expect a district attorney or other public prosecutor with hopes of a political future to haul up and punish hundreds of men for an artificial crime untainted by immorality. Clearly, some other method must be resorted to if we insist that elections shall be determined by the whole body of voters. It seems to us that the most practical plan is to reduce the number of elections. All official terms should be lengthened—most of them doubled. In this State we have had this year the equivalent of three elections, to say nothing of registration days, and a general feeling of boredom has resulted. Yet we have to do more voting next year and the year after, and so on indefinitely. It does seem as though we could finish the whole job at one time and then rest for a few years. Private business enterprises which succeed retain their employees during good behavior; and while this plan is not practical in politics, it might be approached more closely with great advantage.

That the rural landscape of New York State often presents a lonesome picture cannot be gainsaid. It

is true of many of the highways in less thickly settled sections that one may travel for miles at many seasons of the year without passing a soul unless it be the tolling vehicle manned by the rural mail carrier, or the itinerant grocery wagon, or one of Mr. Rockefeller's omnipresent distributing trucks. Whether this solitude tends to inspire crime it is difficult to say off hand. In any event, there has been in existence for some years past a small but influential group banded together for the purpose of placing policemen amid the rural scenery for which this State is justly famous and legislation to that end will again be pressed at the coming legislative session. It is an inspiring prospect, this matter of a State Constabulary. That it would call for another expensive bureau in the government at Albany cannot be doubted; equally inevitable is a conflict of such a force with the constitutional powers of the office of sheriff in the different counties. The fact that Pennsylvania has successfully instituted such a system is no argument in New York, where the conditions are not at all similar to those in the Keystone State. We already have a patrol of protectors of fish and game whose uniforms are well-calculated to make wild life even more wild. What this new instrument for the preservation of law and order could do that the militia does not now effectively perform whenever called upon is a question that the taxpayers may well ponder.

CAN TELL HUNTER FROM DEER.

Butt the Size of a Dollar to Distinguish Nimrods in 1917.

Town clerks throughout Ulster county have received a supply of the new hunting licenses and the badges accompanying same which are to be worn by the Nimrods in the field beginning next Monday. The license fee remains the same, \$1.10, the extra ten cents covering the cost of the emblem, which is two inches in diameter and stamped with the date, the inscription of purpose and the number corresponding to the license it accompanies. It was designed by the state conservation commission as an aid to game protectors in enabling them to tell at a glance whether a hunter or trapper has complied with the law.

The lettering like that on the coin follows the rim of the disk and reads: "Hunting and Trapping License State of New York." In the center are the words: "Conservation Commission, 1917." The cost of a license to residents is \$1.10; to non residents and aliens, \$10.50.

Potatoes Going Lower.

It is stated that the bottom is slowly dropping out of the potato market in Delaware county, and that at Delhi a few days ago dealers were offering only 60 cents per bushel. A Walton grocer bought two carloads for \$1.50 per bushel and shipped them and he admits that he lost money on the deal, as there was a slump in the market. Potatoes will be in the opinion of many, plentiful and cheap in the spring.—Pine Bluff Optic.

MAKES HIM WONDER.

Methodist Pastor Comments on Certain Parts of a Sermon.

Kingston, N. Y., Dec. 27, 1916
Editor of the Kingston Daily Freeman, Kingston, N. Y.

Dear Sir:—As we read in your issue of Dec. 26th some of the statements made in an article under the caption "First Miss Sung by Father Kelly," we were moved to wonder at the arrogant conceit of some men—yes, more than that—led to wonder the source of authority for all this.

John the Baptist, the forerunner of the Christ, while calling men's attention to Him, said: "Behold the Lamb of God which taketh away the sin of the world" and, again, a little later: "He must increase but I must decrease"—but it would seem that there has come among us a class of men who stand on equal footing with the Christ, even to the offering of themselves in the sacrament, for the writer of the article in question makes this statement: "And when he changes the bread and wine into the Body and Blood of Christ, what does he say? Does he say 'This is Christ's Body and Blood' No! But he says 'This is my Body and my Blood, as if it were Christ Himself who was speaking through his priest and not a mere representative.'" (We note that the qualifying word "my" is no capital.)

And when we read the statements of this article in reference to the place this class of men occupy, in the affections and hearts of some people, we are wondering if poor St. Peter is not just a little sorry that he said to Cornelius, when he fell down at his feet in worship, "Stand up; I myself also am a man." Acts 10:26

We wonder, when we read this statement, "No wonder we are so jealous of their honor, for to us they are not men of mere human influence—they are more than men—they are more than angels—they are more than saints—they are more than gods—they are more than the whole of creation—they are more than the whole of the universe—they are more than the whole of the world—they are more than the whole of the WILL DOREMUS BE NEW CITY CLERK?

Rumor had it today that City Treasurer Fred H. Doremus would be appointed city clerk the first of the year by Mayor Canfield to succeed the late John T. Cummings, who held the office for many years. If Mr. Doremus receives the appointment it means that there will be a vacancy in the city treasurer's office to be filled. Rumor was not so positive as to who would be appointed city treasurer. It is likely that Mayor Canfield will make no announcement until the first of the year. The job of city clerk has been paying \$2,500 a year, but rumor also has it that the salary will be cut to \$2,000.

French Preparing a Drive?

By Telegram to The Freeman
London, Dec. 29.—The action of the British in taking over an additional section of the Somme front is believed here to indicate that the French are preparing for a drive elsewhere, probably at Verdun. A heavy force of French troops was released by the extension of the British line. The lull of the Somme front continues and Major General F. B. Maurice, director of military operations at the war office, intimated in an interview that it may continue throughout the winter.

Birds' Instinct Unerring.

The sense of direction in migratory birds is as marvelous as it is mysterious. The familiar inhabitants of dooryard martin boxes return the next year to these same boxes, though meanwhile they have visited Brazil.

DELIRIOUS MAN SHOOTS DOCTOR

By Telegram to The Freeman
Baltimore, Dec. 29.—In a fit of delirium brought on by overstudy, George Gantz, a Harvard graduate, today shot and seriously wounded Dr. George H. Hocking, a well known physician, who was treating him. Gantz fired four bullets at the doctor, three of which took effect. Immediately after the shooting, Gantz barricaded himself in his room and stood off policemen who were called to arrest him. He is believed to have plenty of ammunition. Dr. Hocking will recover. Gantz, who is 32 years old, late this afternoon was still holding the police and armed citizens at bay. Gantz is at a window with the gun pointing over the sill in plain view of the crowd gathered below. The officers decided not to attempt to shoot the crazed man, hoping that he could be taken alive after he had become exhausted.

Square-heads Rule the World.
By Telegram to The Freeman
Cleveland, O., Dec. 29.—Square headed men are the ones who rule the world and the keenest people are those with small, beady, black eyes. Kibby said light people demand more amusement than dark ones and that those with sloping foreheads think much more quickly than those with straight ones.

METACAHONTS.

Metacahonts, Dec. 28.—The happy and jovious Yuletide passed off very pleasantly in this place and seemed to be enjoyed by everyone, young and old. On Friday evening the day and Sunday school committees, in the school room, which was appropriately decorated with bells and greens, and afterwards a bounteous free supper was served, and all expressed heartiest approval of everything. The exercises were well rendered and represented the tireless effort on the part of both the instructors and two children. The collection which was taken will be given to the Industrial Home at Kingston.

Miss Edna Baker, M. Baker and Miss Grace Lennon of Accord spent Christmas Day with Benjamin Rider and sister, Miss Della Rider. Mr. Rider also entertained some company and a jolly time was spent. Preston Enderly and Ernest Miller were in Ellenville on Saturday last on business.

G.A. HART & CO.
KINGSTON N.Y.

SHRINERS' TICKETS LIMITED TO 1,000

The executive committee of the Kingston Shriners' Association has decided to limit the number of tickets sold to their annual ball to 1,000. So that on January 17, when the Shrine holds its ball there will be no excessive crowd upon the big armory floor. Every member of the association, numbering 125, are out now selling tickets and a large number of requests have been received from out of town folks who will attend the ball. With the limitation placed at 1,000 those who desire to attend should place their order with one of the ticket sellers before the tickets are sold otherwise some one is bound to be disappointed and the rule of "first come, first served" will hold good in this instance.

Not only the dancing but the fact that the Arab Patrol from Cyprus Temple of Albany in full uniform will give one of their exhibition drills, will cause the tickets to go early and as the Kingston Shriners are noted for their good times, it is probable that the limit of 1,000 will be reached all too soon.

Arab Patrol of Cyprus Temple, 50 strong, in their gay uniforms and perhaps 50 members of Cyprus Temple will attend. The patrol will appear in their uniforms which are considered the most gorgeous and finest of any in the United States.

Two orchestras will furnish the music for dancing and no matter in what part of the big ball room you may be the music will always be in evidence.

Lay's New Year Sale

1916 will soon be history. It has been a year of momentous happenings the world over. The War Lord has devastated property and humanity on two hemispheres. While the nations of Europe are clutching at each other's throats, we, in the United States, enjoy unprecedented prosperity.

During this holiday season we try to forget the misery, want and hunger in existence and think of brighter things. We have much to be thankful for.

In our own case, we are very grateful to the people of Kingston for having made it possible for us to do the biggest Christmas business in the history of our market.

We thank the public for their generous response to our advertisements and wish you all a Happy and Prosperous 1917.

FREDERICK L. SMALL

BROKER ON TRIAL FOR MURDER OF WIFE.
Frederick L. Small.

Ossipee, N. H., Dec. 29.—Frederick L. Small, a Boston broker, on trial here today for the murder of his wife, Florence A. Small, is confident of acquittal. Mrs. Small's body was found in the basement of the Small cottage near here after the place had been destroyed by fire. It lay in a pool of water, which prevented it from being destroyed by the flames. A rope was tied about the neck. Small was in Boston on business at the time of the fire. He was arrested after he had offered a reward for the apprehension of the murderer of his wife.

MRS. FURMAN NO. 2 ON WITNESS STAND

On Her Testimony Mrs. Furman No. 2 is Given a Divorce—Various Other Suits Have Also Been Begun.
A divorce case with several odd features was tried before Judge Hasbrouck at supreme court chambers this morning.

The suit was brought by Tillie Furman against Ernest B. Furman, and she asked for a divorce on statutory grounds. Furman is well known in Kingston, where he formerly was engaged in business as an insurance and real estate agent. He was quite prominent in some circles and before he left town he borrowed money from a number of friends which he has not repaid.

Tillie Furman, the plaintiff, who was represented by Corporation Counsel William D. Brinnier, testified that she lives at No. 54 Murray street, is 28 years old and was married to Furman in this city on April 21, 1910. While they lived together he earned from \$18 to \$25 a week and sometimes earned \$30 a week or more.

Mrs. Nettie Paynter, widow of Justus S. Paynter who was named in the complaint as co-respondent, was present with her attorney, Milton Diamond, of Diamond & Abrams, lawyers, of No. 41 Park Row, New York city. She was sworn and testified that she was formerly Nettie Paynter; that she never met Mrs. Furman before; that she was married to Ernest B. Furman at Sandusky, Ohio, on May first, 1916, and had lived with him.

Mr. Brinnier asked her to identify one of a number of letters which he had, but Judge Hasbrouck said that no further proof was necessary. He directed Mr. Brinnier to prepare an interlocutory decree of divorce, providing for \$7.50 a week alimony and \$50 counsel fee.

Tillie Furman was quite overcome when she heard Mrs. Paynter testify that she had married Furman. She had heard of the marriage several days ago. She was assisted from the room but returned after regaining her composure. Judge Hasbrouck's questions after in regard to alimony, she said she had been employed as demonstrator for several New York firms in selling toilet productions and it cost her from \$6 to \$7 a week to live, exclusive of clothes. She owns a small home on Murray street.

Mrs. Nettie Paynter Furman procured the arrest of Furman on Saturday, December 23, in Brooklyn, in a civil suit to recover \$2,900 which she alleges he obtained from her under false pretenses. She claims she first met Furman in April, 1915, when she was disposing of her effects in this city and Furman was acting as her broker. She claims that Furman told her he had obtained a divorce from his first wife, and that during June, August and October he borrowed \$2,400 from her, offering her security life insurance policies which she claims she offered to him to be worthless. She claims that Furman told her later that his first wife was about to sue her for alienation of affections and she delivered \$500 more to him but discovered that he never paid over the money. Mr. Diamond stated in court that the order of arrest had since been vacated. The suit for alienation of affections brought by Tillie Furman against Mrs. Paynter-Furman is for \$20,000. Brinnier & Canfield are her attorneys.

TO HOLD A CHILD WELFARE EXHIBIT

At the meeting of the executive committee of the Federation of Women's Clubs held this morning at the Y. M. C. A., besides the regular business, it was decided that the Federation should lend its assistance to the presentation of the best Child Welfare Exhibit provided by the National Society of Child Welfare, work, the same to be held some time in January.

Following the reading of the minutes of the last regular meeting and the special meeting of the Federation, as given by Miss Schaeffer, the report of the treasurer, Mrs. Hyman Roosa, was given as follows:

Balance brought forward	\$56.25
Disbursements	
Mail bill to Charles De Forest	12.81
To the Sunshine Society	5.00
Total disbursements	17.81
Balance on hand to Federation Fund	38.44
Balance on hand to Visiting Nurse Fund	23.55

The report of most interest and importance was that given by Miss Helena Clearwater, chairman of the Theatre Approval Committee. Miss Clearwater told of visiting each theatre in town and of receiving very courteous treatment from all managers, when she stated the plans of the committee. All expressed willingness to co-operate. At the Orpheum, the manager expressed willingness to run special juvenile Saturday afternoon performances. The Star, under new management, received very favorable consideration and it was the best possible in accordance with the admission prices. Manager Gillette of the Kingston Opera mentioned, especially as a house had made a splendid educational offer. To the class and teachers in the trades or high school, present in the city during the presentation of the best essay on the English subject which the class is studying. Miss Schaeffer and Miss Clearwater were appointed as a committee to have in charge any social side of the subject being there might be to the affair. Owing to the holiday season, no such classes and teacher to be the guests of the opera house.

This fine offer had been reported to Superintendent Michael, and the matter will be taken up with the principals of school. The two performances reported upon as being \$1.64 & \$1.65; Chicago May

IN STATE CANALSBy Telegraph to The Freeman.
Albany, Dec. 29.—No matter how
tempting the ice which has formed
in the canalized waters of the state,
no one shall cut or harvest it with-
out first having obtained permis-
sion from the state. This edict has
just been issued as the result of an S. A., before whom the recent hear-
ing was held, submitted to Edwin T.
Coffin, secretary of the Chamber of
Commerce, the plans for the bridge
which have been approved by the
chief of the engineers and submitted
to the secretary of war. The plans
call for one 600 foot span, the other
one approximately 400 feet. This is
looked upon as a big improvement
over the other plans, but will not be
satisfactory to all concerned, it is be-
lieved. The chamber will act on the
new plans in the near future.The original plans were objected to
by almost everyone connected with
Hudson river navigation, as well as
the citizens of Albany and surround-
ing cities. They declare that a span
of 480 feet was not enough, and that
such a bridge would be an obstacle in
the way of a 27-foot channel. The
bridge was not objected to, but many
believed the spans should be at least
600 feet. According to the new plans
the western pier of the main channel
is west of the western dike. Among
the conditions recommended by the
chief engineer is that fenders shall be
constructed and maintained at all
times in good condition by the rail-
road. He also made recommendations
to provide suitable facilities for
navigation while the bridge is in the
course of construction. According to
the new plans the space between the
piers that carry the bridge from the
river proper to the banks shall be
from 75 to 100 feet.In his opinion, the attorney gen-
eral holds that by virtue of this sec-
tion, the superintendent of public
works is invested with power to
authorize persons, for a considera-
tion payable to the state to cut ice
from the artificial canals of the
state and that no person without
obtaining permission can cut ice
from such waters.The attorney general further holds
in his opinion that the mere fact
that the state has entered upon and
canalized portions of the Mohawk
and Hudson rivers does not divest
abutting property owners or the pub-
lic from the right to cut ice forming
upon such canalized waters, but the
opinion makes an important distinc-
tion relating to the canalized
rivers.At several points on the Mohawk
and Hudson rivers the state has
constructed large dams which oper-
ate to flood large portions of the
adjoining uplands, outside of the
natural bed of the river. The state
has appropriated the fee of these up-
lands. When the dams are filled
these uplands are flooded and there-
by a large artificial area of ice fields
are created.The opinion also holds that as to
ice forming upon these artificial
areas, over the uplands appropriated
in ice by the state, the aforesaid pro-
visions of the Canal Law apply and
that the superintendent of public
works may forbid the cutting of ice
from such artificial areas within the
pool of these dams, except upon
such terms as he may prescribe.In substance the opinion holds
that the rights of the public and
abutting owners to cut and take ice
from such rivers are limited to the
ice forming upon the natural bed of
such rivers as these channels have
existed prior to the barge canal im-
provement.
The Mohawk and Hudson rivers,
or such part of them as have been
canalized, formed a considerable
area for ice cutting and the opinion
of the attorney general will doubt-
less mean a rush of ice harvesters to
his office with requests to be per-
mitted to gather the ice there.

"The Christmas Rose."

"The Christmas Rose," the can-
tata to be sung at the First Re-
formed Church next Sunday evening
by the regular choir of the church,
assisted by Arthur G. Carr, barito-
ne, is a work of unusual beauty
and interest. The Christmas story
is well told in verse by Frederick H.
Martens. A glance at the first page
of the score, an introductory Pas-
torale, shows what excellent orches-
tral effects are possible, and also
how cleverly they have been adapted
to the organ. The first chorus,
pastoral in style, "Above the Hills
of Bethlehem," containing respon-
sive work for chorus and organ,
and the succeeding baritone solo,
"The Choirs of Celestial Hosts,"
shows the composer can write sim-
ply and yet sustain interest. A lit-
tle choral gem is "The Wise Men
Kneel beneath the Roof of Strang,"
for women's voice, with harp like
accompaniment. A quaint oboe solo
introduces a recitative for soprano,
which is followed by a chorus used
responsively with the organ with
excellent effect. The story is con-
tinued by the baritone and soprano
and the cantata is finished by a cap-
ital chorus in which the composer
shows cleverness of treatment.WIDER SPAN FOR
PROPOSED BRIDGEThe Albany Chamber of Commerce
won a partial victory in its fight
against the building of a bridge across
the Hudson river near Castleton with
a pier in the center of the river, leav-
ing two spans of 480 feet each.
Colonel Taylor, corps of engineers, U.
S. A., before whom the recent hear-
ing was held, submitted to Edwin T.
Coffin, secretary of the Chamber of
Commerce, the plans for the bridge
which have been approved by the
chief of the engineers and submitted
to the secretary of war. The plans
call for one 600 foot span, the other
one approximately 400 feet. This is
looked upon as a big improvement
over the other plans, but will not be
satisfactory to all concerned, it is be-
lieved. The chamber will act on the
new plans in the near future.

changes, will be made in the foot-
ball rules for 1917. This was made plain
today by Dr. Harry L. Williams,
coach of the Minnesota football eleven,
and member of the rules commit-
tee, at the meeting here of the Na-
tional Collegiate Athletic Association.
"It is not too much to say that the
present rules have given us the best
game of football we have ever had,"
said Dr. Williams, "and it is to be
hoped that the rules will be allowed
to remain as they are. The public,
rules, and players and coaches have
something stable to work on. The
past season has seen a marked de-
velopment in science and strategy of
play."New York, Dec. 29.—The total
